A Ready-To-Assemble
Hands-On Unit
Including Reproducibles!

From the time we first began using Project Packs we fell in love with them. We knew that this type of hands-on learning experience was just the thing that was needed to make boring academics not only educational but, fun and exciting too!

To help get you started we have included some of the questions we receive about Project Packs.

What is a Project Pack?

A Project Pack is simply a great way of compiling key points from your studies into one spot that can easily be stored and available to be reviewed at any time

How does this help me? and Why is this a better way for learning?

The number one reason is the students will retain the information covered so much faster. Children learn by doing. Project Packs put learning into their hands!

Another reason is it is a convenient way to store those wonderful projects. Students can go back and review them at any time and your schoolroom or refrigerator is not cluttered with bits and pieces of their projects.

And the final reason is they are great and the possibilities are endless! There are no age limits and no subject lines that cannot be worked into a Project Pack. We will be adding many units to help you in the education of your students.

How do I make a Project Pack?

A Project Pack is simply a file folder refolded into a shutter style book. Open it flat and then fold the sides into the middle creasing neatly and there you have it.

For a more colorful and eye-appealing Project Pack it is suggested that some of your Reproducibles be printed out on colored multi-purpose paper.

What supplies do I need?

You will want to have file folders, paper of different colors and weights, your students' favorite coloring tools, tape, glue, scissors, and a stapler.

Numbers

Numbers 6: 22-27

God told Moses to teach Aaron and his sons how to bless the people. He told him exactly how to ask for the Lord's blessing. This blessing extended to all areas of the peoples lives. It included their physical, emotional and spiritual well-being.

This scripture teaches us how to ask for the Lord's blessings in our own lives and in the lives of all of His people. Let's take a better look at the blessing.

This blessing asks that the Lord keep you; keep you to Himself, keep you from the Evil One, keep you from temptation and sin.

It asks that the Lord make his face shine upon you. This is like asking God to smile upon you, to look at you favorably. It also asks for the Lord to be gracious to you. Gracious means to be kind, generous, merciful and compassionate.

Finally it asks that the Lord lift his countenance upon you and give you peace.

Countenance means face and even more specifically it means calm face. This part of the blessing is asking that God will look upon you with a calm face and in so doing give you peace. Peace in your heart, peace in your mind and peace in your spirit.

- Make a Trifold Blessing Jar Book.
- Each day for a week record the physical, emotional and spiritual blessings that the Lord bestows upon you and your family.

PHYSICAL

EMOTIONAL

SPIRITUAL

The image shows a three-column grid for journaling or notes. The columns are labeled 'PHYSICAL', 'EMOTIONAL', and 'SPIRITUAL' at the top. Each column contains 10 horizontal lines for writing. The grid is divided into three equal-width columns by two vertical lines. The top of each column is rounded, and the bottom is also rounded. The labels are in a dark grey box at the top of each column.

Project Pack Assembly

Lay the file folder flat. Fold right side to the center and crease, repeat for left side so that it forms a shutter. This is the top of the extension. Cut the 2nd file folder in half. With clear packing tape attach it to the top of the center section of the Project Pack so that it covers the middle section of the first folder. You may also use a piece of cardstock. Below you'll find pictures of one way to arrange your project pack. You can do it in anyway you wish and remember be creative and make it your own!
